HEALTHCARE & SPA

Body care is self-care

Body Balance

HEALTHCARE & SPA

Today's reality makes us hurry at every turn. So as to be able to achieve all of our desired goals, the balance and the cooperation between our bodies and minds are crucial!

Investing in your wellness is the best you can do not only to reward yourself after everyday matters, but also to make yourself even stronger while facing them! Are you curious how to do so? Do not worry, we won't leave you without solution!

The efficiency of Gardeco Body Care line, which we've created, is not based on empty words – we use them too!

Products which build the line are entirely or partially made of environmentally friendly materials such as wood or natural fibre. We design each product not only with an eye for aesthetics but also the concern of the highest quality. Products from this line have many health benefits – remember that your body is like a temple! Who does not deserve a bit of relax while stress-releasing ritual? Such a careful, regular use of our products is, above all, the easiest way to treat yourself with a little pleasure. Browse our range and treat your skin with the care it deserves today.

Make your product unique!

Since we aim to meet our customers expectations – you can also create your own brushes design!

Your product family, your brand – with us you have a free rein to get the items exactly how you imagined them to be. For example finishing your brushes with your logo or individual print – we will be happy to provide you with the project formed thanks to your tips and leads. The complexity of our services includes helping you develop packaging according to your specifications as well!

Engraving examples

We offer the option of marking our wooden brushes using precise laser engraving, which ensures exceptional durability and aesthetics. The engraving is applied directly to the wooden brush handle—without the use of paints or chemicals—preserving the natural look of the wood and highlighting its grain and character. The engraving is resistant to wear, does not fade, and remains intact even with intensive use.

Each order is handled individually – from advising on the placement and size of the marking to precise execution with attention to the smallest details. This ensures you receive a product that is not only functional but also visually refined, perfectly aligned with the character of your brand.
