MANY SUCCESSFUL IDEAS OF PACKING WAYS

Comprehensive logistic solutions have been offered at Gardeco for over 18 years. We make sure that the products delivered to our customers are secured with appropriate transport packaging, adapted to the means of transport and the product type.

We pack the products with care for the smallest detail, protecting them against harmful effects of external factors, moisture and pollution. Our goods are packed on pallets, in cardboards or in displays, which attract consumer's attention. Proper exposure of goods is an important marketing activity which benefits in the future.

You can design with us your own display or labels. Our specialists will advise you in choosing the most appropriate solutions, adjusting them individually to your needs, requirements and expectations.
